

# Special Options

## Why Do Boats Float?

Gr. K-2 students enjoy hands-on fun with water play, while discovering basic principles of flotation and boat design.

## Tide Pool Explorations

Gr. K-3 students meet the inhabitants of the intertidal zone, with a focus on habitat and adaptations.

## Document Detectives

Gr. 4-6 students explore primary source materials to discover stories of storms, shipwrecks and rescues, presenting their findings to the group.

# Hull Lifesaving Museum

# Tours for Children

The 1889 Point Allerton U.S. Lifesaving Station was home to Captain Joshua James and his crew, famous for saving hundreds of lives from shipwrecks in Boston Harbor.

A children's tour includes:

- An introduction to Shipwrecks & Lifesaving in Boston Harbor
- Daily Life at the Station, c 1890
- Lifesaving Equipment and Methods

- A The 1887 Wooden Surfboat *Nantasket*

Children will have the chance to view first hand the lifesavers' surfboat and rescue equipment, while hearing true tales of amazing courage and heroic rescues.

The fun culminates in the museum's loft where children of all ages enjoy:

- "Setting sail" on our climb-on boat
- Dressing up in period clothes
- Learning to tie a new knot
- Standing watch in the museum cupola, with stunning views of Boston Light, Boston Harbor and Fort Revere Park.

# Youth Rowing

Explore the wonders of the outer harbor with the Hull Lifesaving Museum's (HLM) dynamic youth rowing program designed exclusively for middle and high school students. Embark on an enriching expedition from HLM's boathouse located at Windmill Point in Hull, where participants set forth on captivating journeys to diverse islands.

Emphasizing teamwork and personal development in a lively and upbeat atmosphere, our youth rowing program is tailored for ages 9-19, catering to all abilities. Join us for an unforgettable experience that combines outdoor exploration environmental education, and the joy of rowing.
